Legislative Submission Packet

Prepared by Nickolas Patrick Joseph Schoff
2025

Purpose: This packet provides the complete legislative submission materials for the National Housing Trust Amendment and associated acts — the constitutional, fiscal, and administrative framework to guarantee each American citizen secure access to one dwelling and one commercial property.

COVER LETTER — FEDERAL SPONSOR VERSION

To: [Senator/Representative Name]
U.S. Congress, Washington, D.C.

Subject: Sponsorship Request – National Housing Trust Amendment & Transition Act Package

Dear [Title and Name],

I am writing to submit for your consideration the National Housing Trust Amendment, a constitutional and legislative framework designed to secure every American citizen the right to one primary dwelling and one commercial property — the material foundation of liberty itself.

The accompanying legislative package consists of three integrated parts:

1. The National Housing Trust Amendment
2. The National Housing Transition Act (NHTA)
3. The Companion Fiscal Summary

This proposal is not a spending program but a restoration of the Republic's founding principle: that liberty must rest upon property, and property upon justice.

I respectfully request that your office review this proposal for introduction under Article V authority or as a joint resolution of Congress.

Respectfully,

Nickolas Patrick Joseph Schoff

COVER LETTER — STATE SPONSOR VERSION

To: [Senator/Representative Name]
[State Legislature]

Subject: Sponsorship Request – State Housing Trust Administration Act (SHTAA)

Dear [Title and Name],

Enclosed for your consideration is the State Housing Trust Administration Act, the state-level companion legislation to the National Housing Trust Amendment. It ensures that our State maintains sovereignty, fiscal control, and transparency while fulfilling the new constitutional right to housing and enterprise.

By sponsoring this act, your office can position our State as a national leader in property rights restoration, economic renewal, and community security — all while keeping administration local and fiscally balanced.

Respectfully,

Nickolas Patrick Joseph Schoff

CLOSING STATEMENT

The National Housing Trust Amendment restores Jeffersonian republicanism to the 21st century — not by revolution, but by reaffirmation. It offers every citizen the means to stand upon their own soil, free and secure, without infringing upon another's liberty.

It is constitutional, moral, and mathematically sound.
